

# Truck Company: Forcible Entry September 19<sup>th</sup> 2009

Resolute Hose Company No. 1 of the Sayville Fire Department will be hosting this one-day hands-on training class designed for all firefighters who have the responsibility of gaining quick access on the emergency scene. Training will include time-proven forcible entry techniques using the state of the art Multi-Force Forcible Entry Door System from Firehouse Innovations Corp.

## *Lead Instructors:*

*Battalion Chief  
John Buckheit*

*Fire Department of New York  
Over 20 Years experience*

*Michael Perrone  
Ladder 175*

*Fire Department of New York  
Over 20 years experience*

Learn techniques and refine skills to tackle common forcible entry problems. Access problems are grouped into five categories, and students will observe and then perform time-proven, state-of-the-art methods for gaining quick access on the fireground or emergency scene.

Students will rotate through station (challenges) as listed below while reviewing sizing up the access problem, selecting the best course of action, tool selection, carrying, safety, and use.

**Simple wood doors** (inward and outward opening, one-firefighter approach); **tough metal doors and frames** (inward and outward opening, restricted space, two-firefighter approach); **storefront narrow glass and metal doors** (through the glass, through the lock, and forcing); **and padlocks, hasps, chains** (light locks and heavy locks with and without power tools).

**\*\*\*\*\*Maximum of 60 Students for Hands On Training\*\*\*\*\***
